## Gold & Silver Italian Group: our history

Gold & Silver Italian Group was established in the 1990s by a group of entrepreneurs at the head of small and medium sized enterprises in the jewellery sector, with the aim of joining forces and expanding to the foreign market.

The winning idea was to overcome individualism and share expertise in order to help one another and take on new markets.

An important success factor was the saving that resulted from sharing the costs of trade fairs, promotional material and travel to other countries among several enterprises interested in the same market.

In 2002 Gold & Silver Italian Group formalized its existence, becoming a consortium for promotion abroad.

In 2013, following an important amendment to the National Law on Consortia for internationalization, Gold & Silver Italian Group, which was previously a regional consortium, took on national significance.

Gold & Silver Italian Group implements promotional activities with its own resources, by billing the enterprises participating in each initiative and, in some cases, using public funding.

## Gold & Silver Italian Group: our mission

The Consortium's mission is the promotion of member companies and their products abroad. In these 20 years, the number of members of the Gold & Silver Italian Group has increased to around one hundred, and it has been a pioneer in areas of the world that are very difficult to penetrate, accompanying member companies to all continents.

Experience gained through various promotional activities has helped the Consortium to reach a level of expertise in foreign trade that is recognized by both enterprises and Institutions.

On the one hand, the Consortium organizes promotional activities abroad and, on the other, it offers, either autonomously or through agreements, consultancy and support on all topics related to foreign trade and regulations in the sector.
